

Security Studio for TM1

Security Studio... the most reliable way to:

- Centralize security administration.
- Automate security configuration.
- Gain an immediate ROI.

Overview

TM1 security is complex to configure. For large scale TM1 applications, addressing security reliably across multiple Cubes, Dimensions, Elements, and Memberships is an extraordinary challenge.

Enter Security Studio for TM1

FirstQuarter's Security Studio streamlines security configuration tasks across the entire TM1 environment and allows administrators to confidently deploy their TM1 application, knowing completely that security is configured correctly. Accurate security is critical in the world of financial applications.

Provable Compliance

All large organizations are required by audit or regulation to assure that key data is secure. Security Studio provides provable compliance regarding key changes to security policies, membership changes, and current security configurations – all are difficult to get without software tools.

Free Web Demo

FirstQuarter provides free web demos of its Security Studio software. Feel free to call to register.
